

Our commitment to listening can be found at the heart of our export philosophy, which has resulted in a distribution presence in over 70 countries, with over 700 dealers headquartered all over the globe

Even after more than 20 years of creating and distributing bathroom products around the world, Sonia has never stopped growing. With each new product, new client, or new idea, the brand has evolved.

ADVANCED FINISHES

We continue making inroads in our work developing a new concept of enabling your bath design to carry through onto the body of our bath accessories with features of the environment (for example walls, taps and other bathroom elements) where the accessories are installed. To this end, we continuously research different types of coating technologies.

For Architects and Designers this translates into a powerful option with endless possibilities to accomplish harmonious bath designs with our accessories while matching typical environment finishes such as marble, wood and carbon fibre among others.

TECNO - Tecno Project

FINISH

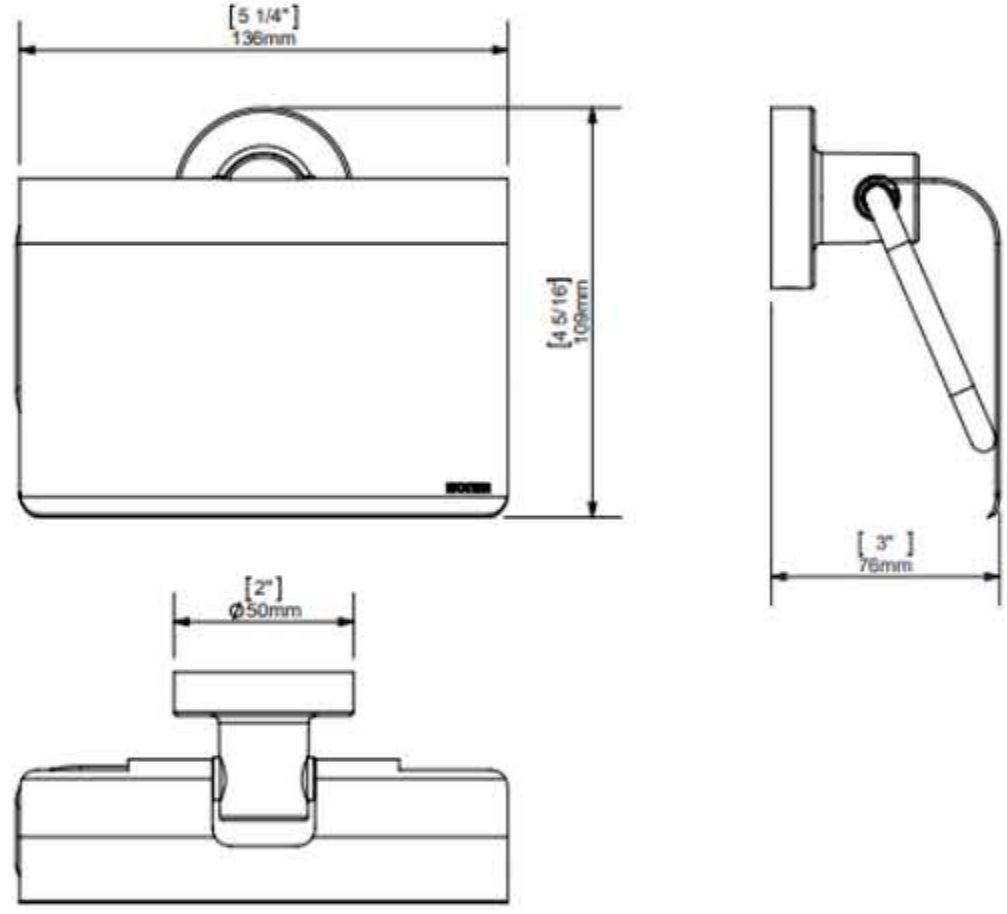

The architectural favorite design with firm strokes and very well defined contours, offers great power of distinction while still paying attention to the rest of the environment. A neutral beauty.
